Bio

Hi there! I'm Tyler, a Full-Stack Developer based in sunny Brisbane. Although I have only spent 3 years in a professional capacity, I've been developing my solutions at home from as young as 13, and ten years later, I'm still writing code and engineering solutions. It's safe to say that I'm passionate about what I do, and I couldn't be happier.

Experience

3 Years,
4 Months

A2B Australia
